to rush through a measure which is so manifestly unpupular. Nor is it fair, on the part of the Government, to insinuate, as was done by the Chief Justice vesterday, that delay was sought for solely for the purpose of aggravating the evil which it is sought to remedy. It must be freely adimitted, of course, that the petitioners against the bill are actuated in urging their views more by selfish than public motives, and it is even quite possible that some of those who have been guilty of encouraging sunuggling are signatories to the petition. Still, the general body of petitioners may be credited with honest motives in bringing forward their petition threatous to strike a vital blow at their trade here. The O. S. S. Co.'s steamship Ajazz Colony, for it is difficult to see wherein would be the benefits of remaining at an inconvenient distance from the customs house. The only apparent reason for doing so would, perhaps, be the greater security which is supposed to be afforded to property in a British colony. The effect of the migration of the onlum interests from Hongkong might not be so disastrous as Mr Francis, with a counsel's licence mictured; there would be no deserted village for the native to contemplate for some time; but much of the business. which now comes to Hongkong might be attracted from it by the presence of an opium shop at Kowloon. If possible therefore, such a contingency ought to be avoided; and it seems to us that the scheme sketched by Mr. Francis would give China every reasonable assistance in the collection of her revenue, fully as much as the one presented by the Government, and at the same time prevent the possibility of even a partial exodus of an important and valuable trade. As on other points, the Chief Justice was prepared with the objecttions of the Government to the scheme. This scheme had already been considered. It would necessitate a trial for au offence not against our laws but for an offence against the laws of China. We shoul lave in fact to undertake to check smuggling here. The chief mate. N. W. Storr. on going to collect the tickets before arrival in Hongkong, discovered two girls in a room in the forecastle where the money had been paid. One of the sailors claimed them and paid \$8, but this sailor, on the vessel arriving in Hongkong, bolted. There happened to be two men on board who had not paid their passage, one of whom was allowed on shore to obtain the necessary money. The compradors of the vessel interrogated the other about the girls and was informed that one belonged to him and that the other was the wife of the man who had gone on shora. The compradore thereupon detained the man on board, and on the other coming back gave them both in charge. THE late arrivals recently from Europe of the French mail steamers have been due (Sava the Straits Times) to the detention at Colombo caused by the late arrival there of the branch steamers from Calcutta and Madras. The Ava on her late voyage was detained three days at Colombo for this reason. The English and the German Companies are making every exertion to expedite the delivery of their mails. The last performance of the steamer Bayern with mails from London in 24 days is noteworthy, and if the great French company does not wish to be left behind in the race it should push as much as possible the departure from Calcutta and Madras of the branch steamers so is to avoid the unnecessary detention at Colombo to the mail steamers from Europe. In these days of improvements in the ateam engine, and night navigation in the Suez Uanal, the mails from Europe should not take longer than 24 days to reach Singapore.

## Canton.

(From a Correspondent). The Buddhist priests at the Flowery Forest Monastery (which foreigners call the

five-hundred Genii Temple) have been quarrelling, and the quarrel ended in bloodshed. A monk having made himself obnoxious to his brethren in the monastery, six of them, armed with knives, set upon and stabbed him within an inch of his life. Tantone animis colestibus ire !

The culprits, three of them in fetters, have been transferred (and serve them right !) from the care of the abbot to the keeping of the district magistrate. They will have to take up their quarters in cells of another kind, a sell for them.

Yesterday, the townspeople were treated to a public show of unusual proportions and magnificence. A procession in honour of the god of the North left the Roman Catholia Mission, I obtained from well-known templo near the foreign settlement in the western suburbs at 9 o'clock, and made the round of the streets as long as daylight lasted. The spectacle was got up regardless of expense and was long drawn out. Dones masses of spectators lined the streets and every available inch of space in the houses and shops and even on the roofs was occupied. It was impossible to pass from one end of the western suburbs to the other except by

## NOTES FROM TONKIN.

(By a Special Correspondent.) A gentleman resident in Tonkin, well acquainted with the position of matters there, sends us the following notes :-

There has been great exaggeration in France and elsewhere as to the real state of affairs in Tonkin. In France, each party has used it by turns as a means of attacking opponents, with the result of throwing dust in the eyes of all. The one party held it up as an El Dorado, where one had only to stoop down to pick up treasures; the other cried it down as a country where and primitive, but agree with Mr Modiwrotchdeness and cholers reigned supreme. There is a little truth in both stories. Tonkin is a very fertile country, and will be a flourishing country when the riches of its soil and of its mines have been exploited, | land. and after a good deal of money has been expended by those who are willing to wait patiently till the time when they may reap it a hundred fold. But, although progress is being made, it is as yet difficult to say

when that happy time will arrive. The adoption of the civil regime was premature; but of course it would be folly now to return to the reign of the sword and to destroy the organisation only roughly sketched out. It would only throw the country back into the period of groping, which it seemed to have left behind. Paul Bert, with his rather factastic character, fell can echo what has fallen from Mr Brereton. under the influence of certain narrow minded people, and his usual good nature gave place to an arrogant haughtiness, which wounded particularly the military, who had really conquered the country. THE HONGKONG HOTEL COMPANY LIMITED. The following is the Report of the Directore of the Hongkong Hotel Co., Limited to be presented at the ordinary meeting of Hotel, at 3 p.m., on Monday, the 4th April,

In accordance with Section 53 of the Ar ticles of Association, the Directors have now to submit to you their half-yearly Report for the six months ending 31st December,

Business during the past six months has been about on a par with the previous half year, and the nett earnings would have been greater if it had not been for the Directors making ample provision for bad and doubtful debts, which had accumulated during the last three years. From 1st June 1886 to 1st March, 1887, the Hotel was undor the charge of the Assistant Manager, then Mr. M. C. Roberts, from Mesar Alexander Gordon & Co., Limited, London, has been appointed Manager, and Mrs. M. O. Roberts, Matron of the Hotel. Property. - The Company entered into possession of their new property on lat-January, 1887, and since that date they have leased the premises know as Mesers. Melchers & Co. s house for three years, and a contract lias been signed for the building of a new wing on the north side of the Hotel. The Directors are now negotiating a mortgage on the whole of their property per cent, per annum.

Profit and Loss .- The accounts for the past balf year, after deducting Interest, Fire Insurance, Taxes, all charges, and making full provision for had and doubtful debts, show a net profit of \$13,928.12, to which has to be added \$1.321.14 carried over from last account, making available \$15,249.53, which the Directors, with the concurrence of the Shareholders, propose to deal with as follows :-To pay a dividend of 4 per cent, for the 6 months. 812,000.00

To write off Extensions and Alterations..... To write off Furniture..... To carry forward to new account 815,249.59 Directors.-Mr Aut. dos Remedios and

Wm. Parfitt retire by rotation, but are eligible for re-election: Auditors .- Mesers J. H. Cox and A. Vaucher offer themselves for re-election. D. McCulloon, Chairman

They are thus playing into the hands of the brokers. who take full advantage of the situation to squeeze them, and when it is considered how little the actual outlay for each coolie is, and that the coolie is not benefitted in any way by the high price paid, the folly of the planters is apparent. There are two remedies. Both of them, however, require united action on the part of the planter, and that is very difficult to obtain. The one is an agreement such as existed last year, not to pay more than a cortain fixed to be presented at the ordinary meeting of sum. The other is to start depots of their charcholders to be held at the Company's own both in the Straits and Hongkong,

and thus get rid of the brokers altogether. The latter, as it would enable the planters to get their supplies much cheaper, would be infinitely the botter plan. It will, perhaps, be said that it would never work, because the prokers, who have made heaps of money of late years, seeing the means of increasing their wealth likely to disappear. would put every difficulty in the planters way, and try to keep them from getting coolies at all. That they would try this is very likely that they would succeedyery unlikely. The only real difficulty in the way of the planters is their own want of union. They would have to be prepared for a hard fight, and would likely have to their resources and a little patience and determination, they would be certain to win in the end.

THE SIAMESE ARMY AND THE BLACK FLAGS.

A Mr J. McCarthy, who has just left the northern division of the Siamese army, contributes the following regarding its operations against the Haws and Black Flags to the Bangkok Times of the 18th March :-I suppose your readers are aware that for some months past the Northern division of the Siamese army, under command of Chao M'un Wy Wononath, or, as he is commonly known, Phra Nai Wai, has been operating against the rebellious Haws on the frontier. and doing good service. I am enabled to send you the following particulars of their doings, which you may probably consider worthy of a place in your columns.

The troops, when I left them a month ago. although they had gone through many hardanips, and lost a number of men. particularly from fever, were in excellent spirits. In all their battles they had been most successful and all the old bands sof Haws had been brought under control. The day I left, Chew M un Wy Wononath lad just destroyed a camp of Black Flags and seized their arms and standards. The weapons consisted of Remingtons, Martini Henrya (some of these of Chinese manufacture) and Sniders. The ammunition was of the best, all solid brass cartridges from Kynoch, of Birmingham. This particular body was preparing to march to the assistance of others engaged with the

French across the Sismese frontier. As fast as one band of Black Flags are an poressed by the Signiese, another appears in a new direction, apparently driven forward by Franch successes on the other side: they are, however, now having a warm time of it between two fires. There is no doubt but that these regions, which have for some time been so disturbed by the excesses of these wandering hordes of robbers, will now be restored to peace and order, and at preent the rebels have been so completely cleared out of Hooa, Pan Ha, and Thang Hoke, that one is enabled to travel about without an escort.

I hear that Chao Bi un Wy Wononath. with the greater part of his troops, will 5433,7654 return to Bangkok about the 10th of April next, and about the same time you may expect to see His Royal Highness Krom Build Pata Cask, who is in command of the Southern division, and who, if any. thing, has been even more successful in sweeping out the Hawa from the districts

THE CHINA REVIEW. PUBLISHED BI-MONTHLY, TENTH YEAR.

THIS Review, which was intended to meet the wants of many students of Chinese caused by the discontinuance of ' Notes and Queries on China and Japan, has reached its Fourteenth Volume. The Review discusses those topics which are uppermost in the minds of students of the 'Far East' and shout which every intelligent person connected with China or Japan is desirous of acquiring trustworthy information. It includes many interesting Notes and original Papers on the Arts, Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Natural History, Antiquities, and Social Mannors and Customs, etc., etc., of China, Japan, Mongolia, Tibet, and the Far East generally. Recently a new departure has been taken, and the Review now gives papers on Trado, Commerco, and Descriptive notes of Travel by well-known writers. It was thought that by extending the scope of the Review in this direction,

The Review department receives special attention, and endeavours are made to present a careful and concise record of Literature on China etc., and to give critiques embodying sketches of the Most recent works on such topics. The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries; some what similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature. antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be looked or from the members of the foreign consular services, the Chinese Customs' corps, and the missionary body, among whom a high degree of Chinese scholarship is now assiduously cultivated and who are severally represented in the first number of the Review by papers highly creditable to their respective authors.
Some translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the career of 508 the Chinese post-statesman of the eleventh century, Sa Tung-p'o, by Mr. E. C. Bowra to not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that 'Notes' and 'Queries' are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary zeal to that which was
